

poly(styrene-ethylene-ethylene-butylene)n or a mixture of two or more of said block copolymers.

10. (Twice amended) A gel [composite] of claim [7] 3 shaped in the form of a gel liner for lower limb or above the knee amputee prosthesis formed by injection molding, extruding, spinning, casting, or dipping of said gel, wherein said gel comprises at least one said block copolymer of poly(styrene-ethylene-ethylene-propylene-styrene), poly(styrene-ethylene-ethylene-propylene)n, poly(styrene-ethylene-ethylene-butylene-styrene), or poly(styrene-ethylene-ethylene-butylene)n, or a mixture of two or more of said block copolymers.

R E M A R K S

The application and the material cited to date have been carefully reviewed along with Examiner's remarks in the Office action. After this review, Applicant is convinced that his claimed composition and articles are novel and patentable. Applicant strongly believes that his application embodies a significant discovery, that the claims define the invention in a clear and definite manner, and that all of the amended claims are allowable.

The Specification, Drawings (attached), and Claims are amended to correct formal matters (which Applicant missed) without affecting their scope. The Specification is amended to correct a transcription error of the Drawing.

Claims 1-10 are present in the case. Claims 1, 3, 7, 8, 9, and 10 are amended for better reading, removal of redundancy, and to better bring out and protect the invention. The multiple dependent claim 7 is now a simple dependent claim.

The amendment do not involve new matter or new issues and are not made for reason of any prior art. Since the amendments require no substantial amount of additional work on the part of the Office, consideration and entry is requested by Applicant.

Should Examiner have any questions regarding this response,
Applicant can be reached at (650) 827-1388.

Respectfully submitted,

John Y. Chen

Agent for Applicant
